

Discipline in secondary school

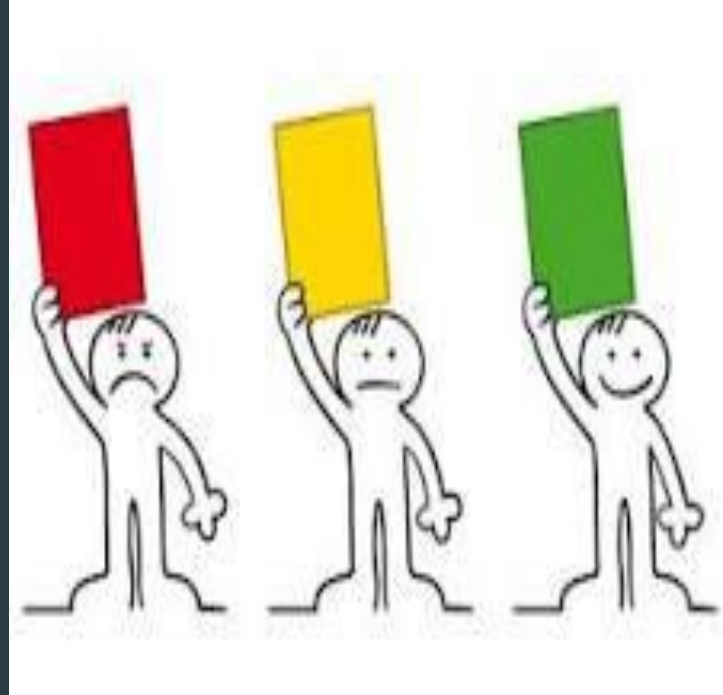

The card system

Three different cards

Red cards: behavior in the classroom

Orange cards: missing school stationery,
homework and unpunctuality

Green cards: particularly positive behaviour or
clear personal progress

Why do we work with this system?

1. We want to create a focused and respectful learning environment where every student can learn successfully.
2. If everyone works together in a focused manner, teachers can devote more time to supporting the individual learning.
3. Better concentration leads to better learning progress and better school results.
4. **Parental involvement:** Parents have the right to be informed on a regular basis because:
 - they play an important role in supporting their child's academic development.
 - they must be informed about factors that influence their child's academic success.
 - school and parents must work together to strengthen positive behaviour and a conducive learning environment.
